Derya Ozdemir, Ph.D.

deryacokgur@iyte.edu.tr

Employment History

2019 – · · · · **Research Assistant,** Izmir Instıtute of Technology.

2017 – 2018 **Mathematics Teacher,** Buca Inci Ozer Tırnaklı Science High School.

2016 – 2017 **Mathematics Teacher,** Doğa College, Izmir.

2014 – 2016 **Mathematics Teacher,** Uğur Tutorial, Izmir.

Education

2022 – · · · · **Ph.D., Izmır Institute of Technology** Mathematics.

2019 – 2022 **M.Sc., Izmır Institute of Technology** Mathematics,
Thesis title: *Qualilative Properties of Solutions of Some Keller-Segel Type Systems.*

2009 – 2014 **B.Sc., Izmır Dokuz Eylül University** Mathematics.

Research Publications

Journal Articles

1. G. Şahan and D. Özdemir, "Uniform asymptotic and input to state stability by indefinite lyapunov functions," *European Journal of Control*, p. 100 945, 2024.

Conference Proceedings

1. D. Ozdemir and G. Şahan, "Stability analysis of nonlinear time-varying cascade systems by indefinite derivative," in *2025 25th International Conference on Control, Automation and Systems (ICCAS)*, IEEE, 2025, pp. 1009–1014.
2. G. Şahan and D. Özdemir, "Uniform asymptotic stability by indefinite lyapunov functions," in *2022 13th Asian Control Conference (ASCC)*, IEEE, 2022, pp. 1771–1774.

Books and Chapters

1. D. Özdemir and et. al., *Mathematics Textbook for Grade 9*. Bir-Yay Publisher, Ankara, 2023.

Other Scientific Activities

Scientific Projects

2020 - 2022 **TUBITAK (Scientific and Technological Research Council of Turkey) Research Project**, Stability Analysis with Relaxed Conditions in Lyapunov Direct Method.

Certification

2025 **The 25th International Conference on Control, Automation, and Systems (ICCAS 2025)**

Other Scientific Activities (continued)

- **EECI International Graduate School on Control, The Scenario Approach: Data Science for Systems, Control, and Machine Learning by Professor Marco C. Campi and Professor Simone Garatti.**
- **I. Workshop on Applied Mathematics and Statistics.**

2024
- **Izmir Mathematics Days – V.**
- **EECI International Graduate School on Control, Introduction to nonlinear systems & control by Professor Hassan K. Khalil.**
- **9th Workshop of the Women Mathematicians Association.**

2022
- **The 13th Asian Control Conference.**
- **Izmir Mathematics Days – IV.**

2021
- **Turkish National Congress of Automatic Control (TOK).**

Skills

Languages — Strong reading, writing and speaking competencies for English.

Coding — Matlab, LaTeX.

Misc. — Academic research, teaching, LaTeX typesetting and publishing.

Teaching Assistant Positions

Fall 2019 – · · · · — **Math 141 - Basic Calculus I**

Spring 2019 – · · · · — **Math 142 - Basic Calculus II**

Fall 2019 – · · · · — **Math 255 - Differential Equations**

Fall 2021 - 2022 — **MATH 145 Calculus for Engineering and Science I**

Spring 2021 - 2022 — **Math 368 An Introduction to Mathematical Control Theory**

Spring 2022 - 2023 — **MATH 146 Calculus for Engineering and Science II**

Fall 2023 - 2024 — **Math 381 Numerical Analysis I**

Spring 2023 - 2024 — **Math 382 Numerical Analysis II**

— **MSE 222 Applied Mathematics for Engineering**

Fall 2024 - 2025 — **Math 381 Numerical Analysis I**

Spring 2024 - 2025 — **Math 382 Numerical Analysis II**

Spring 2024 - 2025 — **Math 368 An Introduction to Mathematical Control Theory**

— **Math 334 An Introduction to Wavelets and Applications**

Fall 2025 - 2026 — **Math 381 Numerical Analysis I**

— **Math 121 Basic Mathematics**

— **CSE501 Numerical Methods and Scientific Programming I**

Spring 2025 - 2026 — **Math 368 An Introduction to Mathematical Control Theory**

— **Math 334 An Introduction to Wavelets and Applications**

— **Math 262 Linear Algebra II**
